Facebook Ads vs. Google Ads Key differences			
	Campaigns	Targeting	Performance
 Facebook Ads	One campaign type that buys across all user properties: Feed, Instagram, Messenger.	Advertiser selects <b>audiences</b> relevant to their business. Intuitive for non-experts.	Strength is <b>demand generation and discovery</b> , driven by audience targeting and browse-based user experiences.
 Google Ads	Individual campaign types that buy on distinct user properties: Search, Display, Video, Discovery.	Search uses <b>keywords</b> to precisely match user intent. Audiences supported for all campaign types.	Strength is <b>delivering leads and sales from qualified users</b> , driven by Search and strong user intent signals.

Id	Date	Text
2	07/15/2019 13:16:11	+kimspalding@google.com is the ambition to go from \$1.2B to \$10B in 3.5 years? Just to make sure I am reading the math right.
2	07/15/2019 13:16:11	Current SB revenue is estimated at about \$6B.

**SMBs need simple  
solutions to digital  
marketing.**

**Bharath Arts & Crafts**  
Channarayana, Karnataka, India

**Cukin Food Trucks**  
San Isidro, Buenos Aires, Argentina

**Admiral Plumbing**  
Boca Raton, Florida, USA

## Facebook Ads: Consumer-focused platform favors SMBs

**Facebook has inherent strengths for SMBs**

- Familiar consumer experience
- No website / technical skills needed to build biz pages with lightweight ads onboarding
- Visual ad formats support discovery
- Social engagement metrics are intuitive (but weaker ROI)

**To capture our addressable market, we are**

- Meeting SMBs where they are - in GMB, YouTube, Search.
- Building ads-ready pages (CTAs, conversion tracking)
- Adding visual ad formats and moments for discovery (Feed)
- Focusing on direct connections with clear ROI (calls, leads)

Vic's Restaurant  
Bradley Beach, NJ

Smart campaigns were built for small business and leverage our strengths.

- Search offers strong, intent-drive demand. Google Ads puts small businesses in front of interested users
- Automation leverages our expertise in Ads for the benefit of SMBs
- Calls focus leverages our calls infrastructure
- Strong ROI with a simple, time saving interface

## Simple experiences make it easy

Smart campaigns are simple, guided and automated.

New campaigns can be setup in <10 minutes with inline chat and suggested ads built in.

Universal - offers the best of Google ad inventory in an automated campaign (e.g., Search, Display, YT)

**Calls our most common goal**

**Budget packages set context**

**Guided actions & in-line chat**

Confidential and proprietary

Google Ads — Advertiser Experience

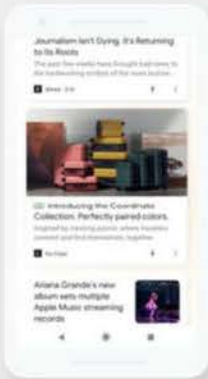

## New ad formats help users discover new businesses

We are investing in new, visual ad formats to help users discover new businesses.

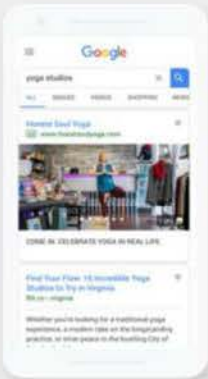

This is important for all markets – and critical for NBU

**Lead gen ads**

**Feed ads**

**Gallery ads**

Confidential and proprietary

Google Ads — Advertiser Experience

19

## Automation enables SMBs to advertise like experts

We are generating landing pages for SMBs without websites

And use ML-based automation to deliver best practices:

- Automated bidding and budget allocation
- Automated creatives
- Automated consumer / query targeting from website content
- Sparse data, conversions

Automated targeting, X-network bidding & budget optimization

Suggested ad text and automated extensions

Instant landing pages (no website required)

Google Ads — Advertiser Experience

20

## Next big challenges - Smart Campaigns

### Real and Perceived ROI

- More direct connections  
(e.g., volume & quality of calls, improved targeting)
- Offer instant landing pages  
(mobile ready with CTAs & tracking)
- Investing in higher quality ad networks  
(LU Ads, Gmail Ads)
- Focusing on reactivation - most SMBs aren't  
"always on"

### One Google

- Engage SMBs where they are on Google  
(Search, GMB, YouTube, GPay)
- Testing ads fully integrated in GMB  
(Ads Go)
- Building simple, in-context ads buying for  
SMBs on YouTube

## And making bold, long-term bets to win SMBs globally

### Local Services

- Google Guarantee
- Vertical marketplace
- Distinctive results for SMBs (pricing, quality, badging, simplicity)

### Ads Go for NBU

- Simple (no ad creative or website)
- Focused on leads (vs clicks)
- Search + YouTube
- Emphasis on top up

### Bundle (Subscription)

- Always on, low fixed price
- Certifications, badging
- Enhanced placesheets
- Call recordings, analytics

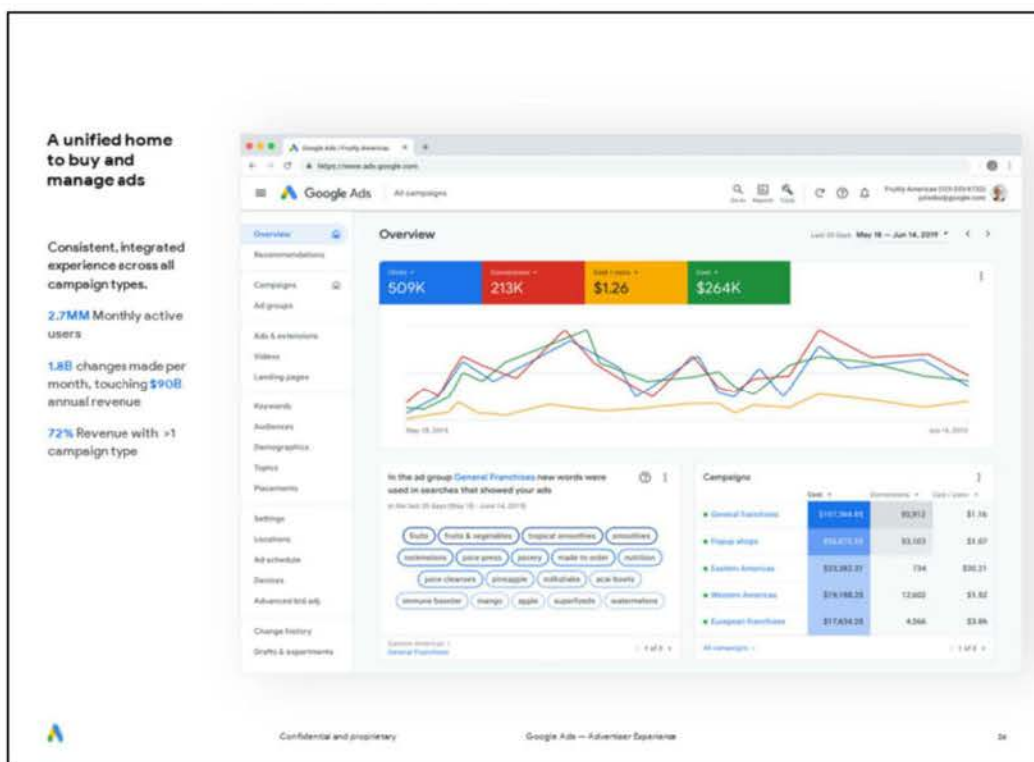

**Our priorities:**  
**Improve ease-of-use +**  
**Grow advertiser success**

**Assistance**

Transform from toolkit for experts to assistive experience that guides advertisers to successful outcomes.

**Machine Learning**

Use machine learning to dramatically simplify user workload and deliver better results.

**UI Innovation**

Re-envision traditional UI paradigms to work well for all advertisers.

**Assistance:**  
Help advertisers get better results

Advertisers care most about improving ROI, but don't always know the best next steps to take.

Recommendations: actionable suggestions to improve campaign performance.

Optimization score: shows headroom for improvement and prioritizes where to take action.

**Impact:**

- 42% advertiser adoption by spend
- \$1.2B incremental revenue
- Sales adopted Opti-Score as a primary KPI

**Machine Learning:**  
Search bidding as a simple goals input

Setting the right bids is critical to performance.

Automated bidding: user only inputs their optimization goal and ROI target. ML models automatically set optimal bid for every auction.

**Impact:**

- Advertiser ROI positive: **15-20%** increase in conversions.
- Time savings vs. manual bidding
- Strong growth: **40%** adoption, **+15 pptx** over past year

**Investments:**

- Enable advertiser insights to inform ML.
- Transparency & insights into ML black box.

Bidding

What do you want to focus on?

Conversions

Recommended for your campaign

☐ Set a target cost per action

Based on the selections, this campaign will use the **Maximize conversions bid strategy**

Or, select a bid strategy directly from recommendations

Strategy selector

Active: Maximize conversions bid strategy

Target CPA uses data and many other signals to automatically optimize your bids. The machine also adapts as it learns to best likely to convert.

Example of the signals for your strategy:

Advertiser: Booked with new members, 1 day to 10 PM

Location: Los Angeles

Location: California

Location: 94

Device: Mobile

Device: iOS

Device: Desktop

Strategy target CPA: \$3.52

Strategy target CPA	Actual CPA	Cost	Conversions	Win rate
\$3.52	\$3.88	\$1,125.20	290	7.1%

29

**UI Innovation:**  
An adaptive experience that scales for all users

Today's UI is tabular / hierarchical - works well for large accounts. Once a campaign is created, you edit it through the tables.

For new / small advertisers this can feel heavyweight (50% of torso advertisers have <5 campaigns).

Adaptive UI concept: for small accounts, provide a simple summary view & make editing work the same as creation.

Adaptive UI concept: for small accounts, provide a simple summary view & make editing work the same as creation.

The screenshot displays the Google Ads 'Campaigns' page. It features two campaign cards. The first card, 'Organic Cold Processed Adios', shows a line graph with a peak in early June and a 'Recommendations' section with a 'Get more clicks' suggestion. The second card, 'Ship Adios Organic Now', shows a similar line graph and a 'Recommendations' section with a 'Add website to your ads' suggestion. A yellow callout bubble with the text 'New feature: Easy to edit' points to the 'Recommendations' section of the second card.

Google Ads - Advertiser Experience

31

**Assistance:**  
Provide answers to key questions

Advertisers spend half of their time on reporting: troubleshooting changes in performance is a major pain point.

**Explanations:** Automatically analyze changes and surface the root causes (e.g. auction, query trends, campaign changes).

In beta, full launch by EOY.

Google Ads — Advertiser Experience

36

**Machine Learning:**  
Reinventing how search creatives work

Creative diversity drives performance, but requires advertiser effort.

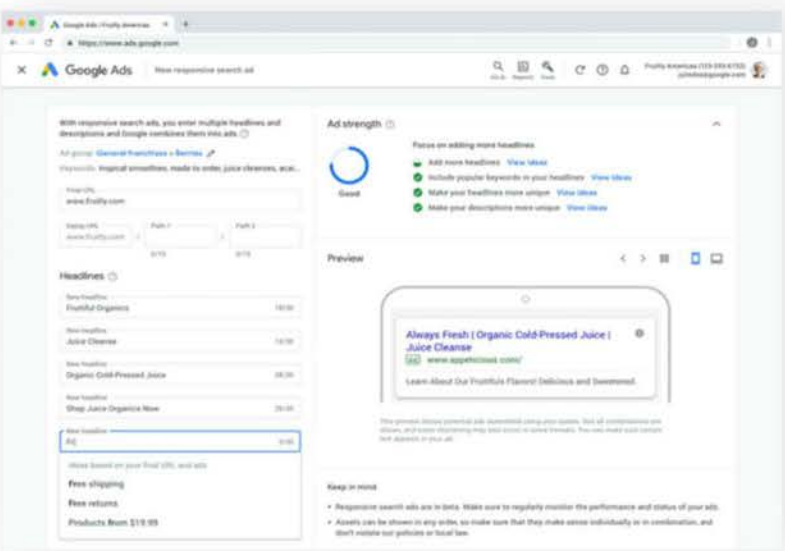

**Responsive Search Ads:** user provides individual assets. ML automatically assembles assets into multiple full ads.

**Impact:**

- 27% adoption by spend
- 5-10% increase in clicks
- Lowers adoption barrier to future Search ad formats

**Investments:**

- Further ML quality improvements (goal is RSA as the default creative)
- Reporting on asset quality

The screenshot shows the Google Ads 'New responsive search ad' interface. It includes a 'Headlines' section with a table of generated headlines and their estimated click-through rates (CTR). The 'Assets' section shows a list of assets including 'Free shipping' and 'Free returns'. A 'Preview' section shows a mobile device displaying the assembled ad. The 'Ad strength' section provides feedback on the ad's quality, suggesting improvements like adding more headlines and including popular keywords.

Headline	Estimated CTR
Free shipping	10.0%
Free returns	10.0%
Free shipping	10.0%
Free returns	10.0%
Free shipping	10.0%
Free returns	10.0%
Free shipping	10.0%
Free returns	10.0%

37

## Instagram: Consumer-focused platform + discovery

**Instagram strengths:**

- Visual, immersive search and discovery with strong reach
- Start with organic content including shoppable posts
- Photo, video and story ads that help introduce new products & brands
- Ease of Use - ads setup embedded in Facebook, default on
- NBU markets (power combo with WhatsApp)

**Where we win:**

- Land at the top of Search (esp FBU markets)
- Strong user intent and analytics
- Broad set of campaign types available (search, display, apps, YouTube) with strong audience tools
- Augmenting visual ad formats and moments for discovery (Feed)

28

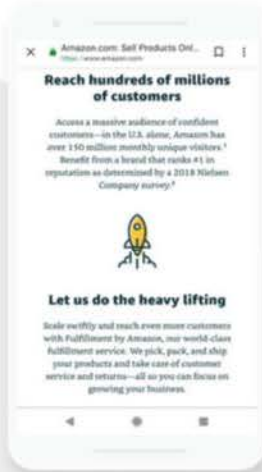

## Amazon: Consumer demand, fulfillment and clear attribution

**Amazon strengths:**

- Drive shoppers across Amazon to SMB products
- 1st stop in the buying journey for many users
- Owns purchase so can measure and report full ROI (esp important for SMBs and manufacturers)
- Able to manage fulfillment
- Often already has of SKU-based product specs / images (help set up for SMBs without visual assets)

**Where we win:**

- Land at the top of Search
- Structured product listing ads with and expanding transaction support and a money back guarantee
- Broad set of campaign types available (search, display, apps, YouTube) with strong audience tools
- Retailers may "pay twice" (promotion + transaction)
- More control of brand experience, pricing and positioning

Google

The small business owner featured here is Suzie Mills. She started with Google ads because she wanted her business to appear at the top of search when she knew potential customers would be searching.

Their business is calls-focused and Google Ads made their phone ring and brought in new customers. At the time this photo was taken, they were spending [REDACTED] quarter [REDACTED]). They were receiving 32 calls a week.

As a reference, the account is currently paused. This is a pretty typical SMB case study.
